

Northern Pulse Growers Association

Legislative Action Fund

One Voice. Unified. Strong.

The Northern Pulse Growers Association (NPGA) is committed to improving and protecting the pulse industry by providing a strong voice on crucial legislative issues such as farm program policy, disaster legislation, crop insurance and market development. The NPGA in partnership with the U.S.A. Dry Pea & Lentil Council is currently represented by respected Washington D.C. lobbying firm, Gordley and Associates. Gordley & Associates provides the regions' pulse industry with the expertise and initiative to work on the major issues facing pulse growers in Montana, North Dakota and the United States.

In the past, Legislative Action Fund contributions have been used to secure the pulse loan program, federal marketing funds and research funding. Your generous contributions to the Legislative Action Fund helps to support industry interests and ensure involvement in the political decision making process. Membership dues are used to fund issues such as research, market development and grower education. The NPGA is asking for your additional support through Legislative Action Fund contributions. Your contribution is an investment in the future of the pulse industry.

We thank you for your support. If you have any questions, please call the NPGA office at 701-222-0128.
